Product description

Felina **519** is an underwired bra from the **MOMENTS** collection. The manufacturer offers it to its customers in another beautiful colour - **DUSTY ROSE**. The colour is a romantic and feminine proposal for the **Moments 519** bra decorated with a floral pattern in the form of embroidery. The unique cup cut has been winning the hearts of Felina admirers for years, who appreciate it for its comfort and excellent breast support at the same time. The wider straps will especially appeal to owners of larger and fuller breasts - they provide comfort and do not pinch into the shoulders. Soft material is very kind to the skin, and flat lace does not stand out under outer clothes.

The bra in **Dusty Rose** goes perfectly with briefs model **1319** from the same series.

Composition:

79% polyamide
15% polyester
6% elastane

This product has additional options:
